Add to My Download List Add to My Download List Save to My Download List Save to My Download List Once again, you've outdone yourself here with this incredible program. There's no telling how long I would have searched for the (actually quite small) serial number which was changed into my Windows 7 key but the fact that you were able to locate it so easily was fantastic! Great job, you're a genius! One small area that I am not sure of, there is nothing that says that the original serial number can only be used to register that same Windows operating system. It would be nice if they had an option that allowed you to register any number of the same OS. Still a great program though! IntelliProtector 1.0 (file size:
