Amazon® Wish List Appalachian Reflections B&H . download: I have installed this and tried to run it as a 32 bit (x86) application on my i7 (32 bit) machine, and it works fine, but when i tried to run it as a 64 bit (x64) application, it didnt want to, not with command line and not with the control panel of Iray. The motherboard on the i7 machine is an asus dragon H67 Please help me try to run this with a 64 bit windows OS. Regards, Tony.

A: The installation instructions say to install the Iray software on a 64 bit operating system. You have the opposite. Try to run the installation again with a 64 bit system.). 3e33713323
