

Gangs Of Wasseypur 2 720p Fixed

and its also a film about growing up. I mentioned in an earlier post that I was put off by the superficiality of the characters in films like gangs of wasseypur because I wanted to believe in their lives. Despite the fact that I know that they were obviously no more real than the characters in Hollywood films, that their lives are little more than a collection of archetypes and cliches, that their tragedies are mere plot devices, I am happy to report that gangs of wasseypur has changed all that for me. Its not only one of the most brilliant movies I have seen this year, but also one of the most convincing I have ever seen. Wasseypur may not be India, but in all honesty, its not even the subcontinent. It is, at once, all of us, and none of us. There is nowhere else I would rather have spent a long day in bed with no other company but this one. This film, gangs of wasseypur is a kaleidoscopic view of the crime that underpins every society, the professional (kiss of one person who becomes a criminal because he or she is very, very bored. It is the result of the appalling poverty of a region in the shadow of the Himalayas, the patronage of politicians who can always be bought for the right price, the subservience of the police and the judiciary, and the constant, grinding search for identity in a place that seems to offer none. In the end, there isnt much about the physical action that hasn't been imitated a hundred at least since the gangster. The wire-guards and grenades, the hand-size bullets, the gleaming steel of machine guns and the spectacular showmen on the streets of wasseypur are all familiar, but the most important thing for wasseypur is to make the audience feel every bit as invested in the fate of the characters as in the fate of the individuals. The towns people are often violent and despotic, but they are also the people whose watching and listening. They are struggling to make something out of their lives and their families, and they too can be as bloodthirsty as the most ruthless gangster. Every death matters, and the audience is forced to sympathize with the victims, as wasseypur puts it, we are not just watching the story of one family, we are also the story of a town, of a society, of a country.
